To Whom It May Concern:

It is my pleasure to recommend OnePoint as much more than outsourcing provider. In my role as Controller for Anark Corporation, I am responsible for the financial activity in 10 departments, all with very diverse needs. OnePoint handles all of the accounting, payroll and human resource functions, freeing up my day to focus on higher-level decisions. I can count on OnePoint to perform these functions with a minimum amount of supervision, and am able to rely on their attention to detail and breadth of knowledge.

OnePoint personnel are always helpful and personable. I interact with several team members daily and they willingly tackle problems with creative and effective solutions, plus they gladly accept additional responsibilities as needs arise. OnePoint customizes their solution to center around my individual needs. They serve more as an extension of Anark's accounting department than as an outside service.

Over the last four years with OnePoint, our company has experienced periods of growth and sweeping changes. OnePoint has been, and continues to be, an indispensable business component. They provide consistency and accuracy on a daily basis and through these times of change. Also, they assist in creating and implementing solid procedures that help to minimize any negative impact of our rapid growth.

It is with great pleasure that I recommend OnePoint's accounting and payroll services. I am certain they will be a great asset to your organization. If you would like to speak with me further about OnePoint, please feel free to contact me at (303) 545-2592 x248.

Sincerely,
