Armando Menocal, WY  
Human Rights & Env. Advocate

To: To Whom It May Concern

I am writing this letter on behalf of Dynamic Data Management (DDM). The Access Fund, a national non-profit organization headquartered in Boulder, has contracted the accounting services of DDM for the past year. Our budget for 1999 is approximately \$700,000. Previously, our bookkeeping was done in-house by an office manager.

In the past year, the quality and accuracy of our financial data has greatly improved because of their services. Our tax preparers (another independent firm) noticed this also. In addition, DDM developed solutions to problem areas in our accounting system. They respond to questions and provide information in a timely, professional manner.

If you are looking for professional, precise accounting services, I enthusiastically recommend them. Please feel free to call me if I can be of any further assistance at 303.545.6772 ext. 7.

Sincerely,

Sally Moser  
Executive Director
