To Whom It May Concern:

I would like to express my total satisfaction with the services of DDM to whomever may be considering the use of their services. Prompt attention, accuracy and open communication are just some of the outstanding qualities of this very professional accounting firm.

We hired DDM to outsource our accounting function, including routine processing, such as client billing and accounts payable, as well as the preparation and delivery of reports. In addition, DDM has provided us with quality support services and budgetary analysis.

All of these services have empowered us to better assess and monitor our overall financial position, begin a planning and budgetary process and manage our complex construction projects with greater ease than we had ever thought was possible. DDM has continually developed creative, easy to manage solutions to our accounting problems that have enabled us to focus on our primary business activities.

It is my pleasure to recommend their services wholeheartedly. Should you have any questions regarding this referral, feel free to contact me anytime at (303) 881-2905.

Yours truly,  
  
Jeffrey S. Ruppert, P.E.  
Partner
